Wendell Pace 301 Holiday Drive

I had 2 surveyors to look at my drive where the water is standing. They said they would have an answer tonight.

It is my understanding the engineer was going to do a walk through in our area and look at these messes that somebody made with our driveways.

What can we do, because we know the engineer is not going to do nothing to help us? Our houses are depreciating in value because people can not get into our driveways. They have to park on the street.

Mr. Smith made a comment a few weeks ago stating they are rather steep.

We need help. Somebody is going to have to step up and help us.
